Education

- **University of Illinois Urbana-Champaign (UIUC)** 2024 – 2028 (Expected)
Ph.D. Candidate, Electrical and Computer Engineering; Advisor: [Prof. Svetlana Lazebnik](#)
GPA: 4.0/4.0
- **Indian Institute of Technology Gandhinagar (IIT-GN)** 2020 – 2024
B.Tech in Mechanical Engineering with Minor in Computer Science
[Institute Gold Medalist](#); GPA: 9.1/10; Minor GPA: 10/10

Research Interests

World Action Models (WAMs), Vision-Language-Action Models (VLAs), Robot Learning, Multimodal Representation Learning, VLMs, Reasoning, Test-Time Scaling

Research Internships

- **Applied Scientist Intern @ Amazon** (May 2026 – Aug 2026)
Mentor: Dr. Sowndarya Sundar, Dr. Keval Doshi, Dr. Jim Thomas *Location: Sunnyvale*
Improved MLLMs' long-video understanding through efficient and targeted evidence acquisition. The resulting research paper will be submitted to ICLR 2027.
- **ML Research Intern @ Microsoft Research** (May 2025 – Mar 2026)
Mentor: Dr. Nebojsa Jojic (Senior Principal Researcher) *Location: Redmond*
Built CityNav, an environment for evaluating MLLMs on long-horizon outdoor navigation, and VoP, a method that elicits latent knowledge from MLLMs, achieving SOTA performance on instruction-free navigation [4].
- **ML Research Intern @ University of British Columbia (MITACS GRI)** (May 2023 – Aug 2023)
Mentor: Prof. Yankai Cao *Location: Vancouver*
Built a neural-to-video generation framework by learning the joint distribution between video and spike-train (brain activity) that reconstructs mouse behavior directly.
- **NLP Research Intern @ University of South Carolina** (Aug 2022 – Feb 2024)
Mentor: Prof. Amit Sheth (Director of AI institute @ UoSC), Prof. Amitava Das, Dr. Aman Chadha
Worked on multimodal fact verification for language models, [8, 9]; multitask learning [15]. Also, launched [DeHate](#), a challenge focused on the automatic blurring of image segments (De-Factify 3.0 @AAAI'24).

Academic Research Positions

- **Research Assistant, University of Illinois Urbana-Champaign** (Aug 24 – Present)
Mentor: Prof. Svetlana Lazebnik, Prof. Unnat Jain, Prof. Heng Ji
Currently working on improving the out-of-distribution (OOD) generalization of World Action Models. Improved OOD generalization in VLAs for robotic Manipulation [2], visual grounding in VLMs [3]; improved compositional reasoning of VLMs[5]; and authored a survey on agentic systems [10].
- **Research Assistant, IIT Gandhinagar** (Nov 21 – May 24)
Mentor: Prof. Shanmuganathan Raman, Prof. Anirban Dasgupta, Prof. Mayank Singh, Prof. Harish PM
Worked on diffusion model for image-to-image generation tasks [7], cross-modal representation learning [6], reinforcement learning for control [14], normalizing flow for constrained geometry, density estimation and path-planning [11, 12], and multilingual topic modeling [13].

Awards & Achievements

- Awarded the *Dan Vivoli Endowed Fellowship* @ UIUC 2026–2027 for outstanding academic performance.
- Awarded the *Qualcomm Graduate Award* @ UIUC 2025-2026.
- Awarded the *Dilip and Sandhya Sarwate Graduate Fellowship* @ UIUC 2024-2025, awarded to outstanding incoming graduate students.
- Awarded the scholarship from Thinking Machines to support my research on VLAs.
- Awarded the scholarship from Modal to support my research on VLAs.
- Awarded the [Institute Gold Medal](#) @ IIT Gandhinagar, for the highest CGPA in the discipline.

- Selected for Y Combinator’s AI Startup School 2026.
- 1st position out of 200 participants in a ML hackathon organized by SmartSense Consulting Solutions Pvt. Ltd., earning a job offer for the role of ML Engineer II (declined).
- Institute nomination for Pre-Doctoral Research Assistant Program at Microsoft Research, India.
- 1st rank in [Undergraduate Research Showcase ’23](#) @ IITGN for work on AI-enabled on-device drones.
- 10/10 GPA for two consecutive semesters (6th & 7th), each comprising rigorous 26-credit course work.
- Awarded *Shastri Indo-Canadian Institute Scholarship* for my research at the University of British Columbia.
- 1st rank in [Hackrushi ’22](#), the flagship annual machine learning hackathon of IIT Gandhinagar.
- 1st rank in IITGN Summer Project 2021 for building the most efficient NLP classification model.
- 1st rank in the competitive programming contest @ IIT-GN, participated by B.Tech, MTech, and Ph.D.

Industrial Internships

- **ML Intern @ Physical Research Laboratory, ISRO** (Jan 23 – July 23)
Mentor: Prof. Dibyendu Chakarabarty (PI, ISRO Aditya-L1 Mission)
 Implemented transformer-based pipeline with Bayesian inference on data from India's maiden solar probe, the Aditya-L1, to predict anomalous geomagnetic storms with uncertainty quantification.
- **ML Intern @ Tata Consultancy Services (TCS Research)** (Oct 22 – April 23)
Mentor: Dr. Manasi Patwardhan
 Designed a transformer-based architecture for product copy generation, trained on the FACAD dataset. Fine-tuned BLOOM and ResNet models using the CLIP loss function to enable effective cross-modal learning.
- **AI Intern @ Defense Research and Development Organization (DRDO)** (Jan 22 – Aug 22)
 Developed an RL framework using the actor-critic method in a PyBullet environment with simulated physics to learn drone swarm navigation.
- **SDE Intern @ Efcens Systems** (May 22 – Aug 22)
 Developed an intelligent network threat detection platform to red-flag anomalies with Sanjeev Kumar, CTO of DELL, and Prasad Malempati, Sr. Manager of Accenture, San Francisco.
